

— ECLIPSE OF THE HEART —

THE ASTROLOGY OF LOVE, SEXUALITY, AND FREEDOM

SESSION 2 with MAURICE FERNANDEZ

Astrology and Sexuality Worksheet

- 1) Identify the position of your Mars, Venus, and Pluto placements in your chart – by sign and house.
- 2) Associate the house with its traditional sign, for example, First house is associated with Aries, Second house with Taurus, and so on. So for example if you have Mars in Gemini in the 10th house, the 10 house is archetypically associated with Capricorn – hence your Mars will have a flavor of both Gemini and Capricorn.
- 3) Analyze them separately Mars in his sign, and the house, Venus in her sign and then house, and Pluto the same.
- 4) Do these energies reflect your nature and sexual approach and needs? Are you expressing the true nature of your sexual self, as described in your chart?
- 5) Are there planets conjunct or opposing your sexual indicators – For example if Venus conjunct Neptune, it will gain a Piscean flavor since Neptune rules the sign of Pisces.

Many blessings on your journey of exploration and study of star knowledge, and best wishes for the Eclipse season.
