2020: The Year of Transformation from Death to Resurrection

2021: The Year of Initiation; Gestation in Preparation for Creative Manifestion

6500 years of Patriarchy = began 4500 BC → 2000 AD (500-year transition 1750 - 2250)

Patriarchy is a social (*political/culture/religious*) system in which men hold primary power and predominate in roles of political leadership, moral authority, social privilege, and control of property. It includes:

- A. Hierarchy – organized in levels according to authority and influence
- B. Uneven distribution of wealth
- C. Power over, suppression, and abuse of women
- D. Conquest and Conquer mentality in order to dominate and control the earth's resources

Kali Yuga = 3101 BC – 1899 AD (300-year transition 1800-2100)

“Kali Yuga, the Dark Age... began in the year 3,101 B.C... That is the year when the spiritual world began to darken, to be shut off from men. Before that time, men had direct consciousness of the spiritual worlds. After **Kali Yuga** had lasted for 3,101 years (1 AD) there came the impulse whereby man is led once again into the spiritual world.... The evolution of humanity took a great forward jump because men were able henceforth, out of the Ego itself, to ascend again into the spiritual world...

In 1899 the Dark Age, Kali Yuga, came to an end, having lasted for 5,000 years. We are living to-day at the beginning of an epoch when quite new forces and faculties will develop. Before the first half of the century has run its course, a number of people, simply through natural development, will possess unusual faculties. **From the end of Kali Yuga, the year 1899 onwards, a certain faculty of etheric sight unfolds in mankind, and this will have developed in a number of people between 1930 and 1940. There will then be two possibilities. Mankind may sink more deeply still into the morass of materialism; everything may be flooded by materialism. This awakening of etheric sight may be ignored,... But if men do not experience this awakening, they will be submerged in materialism.**

In the course of 2,500 years a sufficiently large number of human beings will develop etheric sight. This is the beginning of the clairvoyance that will be an added faculty of the Ego....”

Quote from Rudolf Steiner 1910: <https://wn.rsarchive.org/Lectures/19100220p01.html>

Uranus (Ouranos), the original Sky God, can be likened to Varuna (Vedic Creator god), and is associated with Prometheus (foresight).

Uranus (Sky) and Gaia (Earth) gave birth to Saturn (Chronos, Time and Space), his Titan siblings and the Cyclops. When castrated by Saturn, his seed spilled onto the earth creating the **Furies (goddesses), and upon the waters creating **Aphrodite (goddess of Love and Beauty)**.**

Saturn married his sister Rhea. Together they birthed Hestia, Demeter, Hera, Hades, Poseidon, and Zeus. He ate his children until Rhea hid Zeus who overthrew Saturn and imprisoned him in Tartarus.

Zeus, or Jupiter (Principle of fertility and expansion), married Hera (Juno) and had an untold number of offspring including Chiron.

Chiron, the Wounded Healer, was discovered in 1977 and is also referred to as the Rainbow Bridge, or Christ Consciousness. His mythology mirrors the death/resurrection stories of Osiris in Egypt, Dionysus, and Jesus Christ.

Eris, (goddess of discord and strife) was discovered in 2005 (though there is discord around her discovery). She is also known as Kali in the Vedic tradition and Sekhmet in the Egyptian:

“She was associated with the goddesses given the title **“Eye of Ra”**. According to myth, **Ra** became angry because mankind was not following his laws and preserving **Maat** (justice or balance). He decided to punish mankind by sending an aspect of his daughter, the **“Eye of Ra”**. He plucked **Hathor** from Ureas on his brow, and sent her to earth in the form of a lion. She became Sekhmet, the **“Eye of Ra”** and began her rampage. The fields ran with human blood. However, Ra was not a cruel deity, and the sight of the carnage caused him to repent. He ordered her to stop, but she was in a blood lust and would not listen. So Ra poured 7,000 jugs of beer and pomegranate juice (which stained the beer blood red) in her path. She gorged on the **“blood”** and became so drunk she slept for three days. When she awoke, her blood lust had dissipated, and humanity was saved. In one version of the myth, **Ptah** is the first thing she sees on awaking and she instantly fell in love with him. Their union (creation and destruction) created **Nefertum** (healing) and so re-established Ma’at.” <https://ancientegyptonline.co.uk/sekhmet/>

The Three Phases of Initiation and Their Projected Timeline

2020 - 2021: Isolation: Purification

- A. Suspension of the pre-existing normal reality
- B. Disorientation weakens the defenses and forces a confrontation with the inner shadow
- C. Suppression of the individualized ego, self, or personal identity
- D. Sacrifice or release of past security = shedding of the previous way of life
- E. Confrontation with death => entering the Void => Grieving the Loss

2021 – 2025 Transition:

- A. Old identity dies through processes of purging and purification
- B. Codes of the new order psychically imprinted
- C. Reprogramming and reformation of a new Self
- D. Gestation of seed bearing the new identity and purpose
- E. Build up and strengthening of the core, root power in preparation for rebirthing

2025 Forward Integration:

- A. Establishment of newly expanded boundaries
- B. Acceptance of new responsibilities
- C. Stabilization of the external environment creating security for the new Self to express
- D. Inner healing, soothing, and rejuvenation
- E. Calming of the nervous system as the sense of belonging and union grows
- F. Creative actualization of the new purpose through meaningful activity

Frequencies and Their Effect on Health from the book Power Vs Force:

The Covid-19 virus has a vibration of 5.5hz and dies above 25.5hz.

For humans with a higher vibration, the viral infection is a minor irritant of short duration.

Conditions that contribute to lowering our frequency:

Tired, Fear, Nervous tension, Anger/Rage, Hatred

Maintaining a high frequency raises (strengthens) our immune system.

The frequency of the earth today is 27.4hz, however, there are places that vibrate at low frequencies:

Hospitals, Prisons, Assistance centers, Metro/subway etc. where the vibration drops at 20hz or less.

For low vibration humans, the virus becomes dangerous.

Pain 0.1 to 2hz.

Fear 0.2 to 2.2hz.

Irritation 0.9 to 6.8hz.

Noise 0.6 to 2.2hz.

Pride 0.8hz.

Superiority 1.9 hz.

A higher vibration, on the other hand, is the result of the following behavior

Generosity 95hz

Gratitude 150 hz

Compassion 150Hz or more.
Love and compassion for all living things 150 Hz and above.
Unconditional and universal love from 205hz

What helps to raise our vibration?

Love, smile, bless, thank, play, paint, sing, dance, meditate, yoga, tai chi, walk in the sun, exercise,
nature.

Eating the foods that the Earth gives us: seeds-grains-legumes-fruits and vegetables-Clean water.

The vibration of a single prayer goes from 120 to 350hz
So sing, laugh, love, meditate, play, thank, and live!
